MEMORANDUM FOR: Deputy Director for Operations
FROM: Director of Central Intelligence
SUBJECT: CIA Working Paper - Human Source Collection

1. The attached is a Comptroller's view of the use we made of additional resources to improve human source collection on covert action.

2. To deal with the HPSCI markup next week or the week after we need your account of how the additional resources have been used, how resources on hand have been stretched, what has been accomplished, what has been weakened as a result, where we need to go, and what is still needed to get there. This has a lot of data but doesn't tell the story as it is in a realistic insightful manner.
